Experience

Frontend Developer Apr 2026 – Present

Appnstruct Digital Solution LLP *Coimbatore, Tamil Nadu*

- Develop and maintain production web applications using React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, and Tailwind CSS.
- Build responsive and reusable interfaces for dashboards, business applications, forms, tables, and data-driven workflows.
- Integrate REST APIs and implement search, filtering, pagination, form handling, API-driven data rendering, and frontend workflows.
- Contribute to production applications including Oranzone Admin Panel, Ticket Oranzone, Appnstruct Website, and Oranzone Website.
- Develop reusable UI components and maintain consistent layouts and interactions across multiple application modules.
- Troubleshoot frontend issues, implement feature enhancements, and improve usability, responsive behavior, and UI consistency.
- Use Git and GitHub for branch-based development, code management, collaboration, and deployment workflows.

Full Stack Developer (MERN) Intern Sep 2025 – Apr 2026

Pumo Technovation *Coimbatore, Tamil Nadu*

- Developed responsive frontend components using React.js and integrated application features with backend REST APIs.
- Built reusable components, forms, and responsive interfaces following component-based development practices.
- Implemented frontend functionality and worked with API-driven application workflows during MERN stack development.
- Worked with Git and GitHub in a collaborative development environment.
- Gained hands-on experience with MongoDB, Express.js, React.js, and Node.js across the MERN development workflow.

Projects

Oranzone Admin Panel | **Live** *React.js, Next.js, TypeScript, Tailwind CSS, REST APIs*

- Contributed to a production administration platform with responsive dashboards and business-focused modules.
- Developed interfaces for bookings, customers, reports, revenue, notifications, support workflows, and administrative operations.
- Integrated REST APIs and implemented search, filtering, pagination, forms, data tables, and responsive UI components.

Ticket Oranzone | **Live** *Next.js, React.js, TypeScript, REST APIs*

- Contributed to a production ticketing application with responsive frontend interfaces and API-driven workflows.
- Implemented user-facing screens, forms, data handling, reusable components, and responsive layouts.

Appnstruct Website | **Live** *React.js, Next.js, Tailwind CSS*

- Developed responsive company website interfaces using reusable frontend components and modern web technologies.
- Implemented interactive UI elements, animations, responsive layouts, and performance-conscious frontend solutions.

Oranzone Website | **Live** *React.js, Next.js, Tailwind CSS*

- Contributed to responsive website interfaces and business-oriented user flows.
- Implemented reusable frontend components and responsive layouts for different screen sizes.

React Portfolio Website | **Live** | **GitHub** *React.js, Vite, Tailwind CSS, Framer Motion*

- Built and deployed a responsive personal portfolio showcasing professional experience, technical skills, projects, and certifications.
- Implemented reusable components, smooth animations, responsive layouts, interactive navigation, and functional contact/newsletter features.

Education

Bachelor of Technology (B.Tech) – Information Technology 2021 – 2025
Rajiv Gandhi College of Engineering and Technology *Pondicherry*

- CGPA: 6.88 / 10

Certifications & Training

Master's in MERN Stack Development – Pumo Technovation Sep 2025 – Apr 2026

Certificate Course in Python (CCP) – CSC Computer Education Oct 2023 – Dec 2023
